This submission is in response to the Notice of Allowance dated May 17, 2007, although Applicants already provided an Interview Summary with the documents filed February 8, 2007.

Application No.: 10/021,955 Docket No.: HO-P02086US1

# **REMARKS**

### I. Interview Summary

On November 16, 2006, there was a telephonic interview including the undersigned, attorney Tom Paul, and Examiners Chunduru and Benzion.

Issues discussed included clarification of the restriction. As addressed by the Board in the Decision mailed May 30, 2006 and in furtherance to the Action following the Decision, the Examiner continued to examine subsets of the claims using unequal scope despite the apparent restriction to SEQ ID NO:76. In the interview, Applicants again confirmed that each of the sequences are in fact considered by the Examiner to be separate inventions and therefore restricted. Applicants asserted that the sequences should be maintained in the same group and not separately elected out, but the Examiners maintained the finality of the restriction. Participants also discussed potential claim scope for a continuation in relation to the restriction issues in the present case.

To the extent that the Examiner allowed the claims with the claim amendments discussed during the interview, agreement was reached. However, Applicants reserve the right to pursue the subject matter of the amended material in future prosecution.

Applicants again thank the Examiners for the courtesy of the teleconference.
